SUMMARY

A motivated and enthusiastic Mobile Application Developer currently pursuing BSc(Hons) in Computer Science, with six months of hands-on industry experience in React Native mobile application development. Experienced in building and deploying real-world mobile applications. Eager to further enhance technical skills while contributing to impactful projects in a collaborative environment.

PROFESSIONAL EXPERIENCE

Mobile App Developer Intern

09/2025 - 02/2026

Cybernetic Technologies Pvt Ltd | Onsite
Battaramulla, Sri Lanka.

- Developed and maintained cross-platform mobile applications using React Native and Expo, focusing on responsive UI, smooth user experiences, and efficient application performance.

PROJECTS

Cloud Attend - QR Attendance App | [Play Store](#)

- React Native, TypeScript, Expo, Google AdMob, Firebase Authentication, QR code-based attendance and emailJS
- Successfully deployed and published the application on the Google Play Store, managing the complete development lifecycle independently.

CalQ - Simple Calculator App | [Play Store](#)

- React Native, TypeScript, Expo, and TailwindCSS, supporting core arithmetic operations including addition, subtraction, multiplication and division.
- Successfully deployed and published the application on the Google Play Store.

NaviQ - Bus Tracking App | [Apk](#)

- Developed a real-time bus tracking mobile application using React Native, TypeScript, Expo, and Tailwind CSS. Integrated Firebase for real-time data synchronization and live location updates. Implemented GPS-based tracking and interactive map
- visualization to display live bus locations and routes, ensuring accurate and seamless user experience.

Dog Breed Identifier – AI Dog Breed Identify App | (Ongoing)

- Developing a React Native mobile application that identifies dog breeds using the Gemini API with AI-powered image analysis.
- Integrated AdMob for in-app advertising and built a responsive, modern UI using Tailwind CSS.

ADDITIONAL EXPERIENCE

Own Google Play Console (Old Account)

2022 - Present

<https://play.google.com/store/apps/dev?id=8535787029159101193>

- Own and manage a Google Play Console account for publishing mobile applications, handling app releases, updates and monitoring performance analytics.

UI/UX Designer

2022 - Present

- Specialized in designing intuitive and user-friendly mobile application interfaces using modern UI/UX principles. Focused on creating responsive, visually appealing designs that enhance user experience and usability.

[Project 02](#)

SKILLS

Languages

Java, TypeScript, JavaScript, HTML, CSS, Nativewind, SQL

FrameWorks & Libraries

React Native, ReactJS, Expo, EAS, Context API, Redux, Android Studio, Xcode, API integration

Version Controls, Cloud Platforms & OS

Git, GitHub, Firebase, Google AdMob, GCP, Mac, Windows

EDUCATION

BSc (Hons) in Computer Science (topup)

London Metropolitan University

Next Campus, Colombo 10.

06/2026 - 2027

HND in Software Engineering

IJSE - Institute of Software Engineering

50B Grace Peiris Rd, Panadura.

08/2023 - 06/2026

Advanced Level, Commerce

Mihindu National College - Agalawatta

2014 - 2022

KEY ACHIEVEMENTS

AWARDS

Achieved 1st Place project BlueField Tea factory Management system with innovative solution TeaTune AI.
